Dear Harold,
Thanks for sending the books a few months back. I hope your doing well. I've seen you on a couple of cliffer specials concerning J.F.K and Martin L. King Jr.. I just want you to know I respect your works a lot. Your a true Patriot.

Best wishes always
Kevin Teo

Kevin Teare is an artist who invented his own or adopted one of the existing JFK assassination theories, making this easier by remaining in ignorance of all but theories. I wonder if Stone (Oliver) financed Marra for the flight to NY and living there for the time of his appearance if not more.
